

2012 National Safety Stand Down

This year's FAASTeam Safety Stand Down focuses on Loss of Control (LOC). LOC In-Flight was the dominant cause of fatal general aviation accidents over the last decade. LOC refers to accidents resulting from situations in which the pilot should have either maintained or regained control of the aircraft, but did not. Join the thousands of other pilots across the country in attending this exciting briefing!

Directions: SR13 North from the City to the top of the hill. Left on Warren Road, right on Brown Road. Straight to the red brick bldg with the airport beacon on the roof (airport admin bldg).

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
